fastIEP
TWO PAGER

Why Choose fastIEP?

Supporting Teachers, Empowering Students, Connecting Parents

When it comes to helping teachers implement better IEPs and improving student outcomes, there's a big difference between supporting teachers and changing teachers. fastIEP was designed from the ground up to support educators — not to force them into rigid, one-size-fits-all frameworks.

Unlike other IEP solutions, which focus on prescribing methods and changing teacher behavior, fastIEP empowers teachers to do what they do best. We provide the tools that make IEPs easier to track, clearer to communicate, and more effective — for teachers, students, and families.

A Clear Choice: fastIEP vs. Other IEP Solutions

Feature	fastIEP	Other IEP Solutions
Approach to Teachers	Supports and empowers teachers to manage their IEPs	Attempts to "fix" teacher practices with prescriptive strategies
Ease of Use	Intuitive and easy to learn; teachers adopt quickly	Complex; often requires extensive coaching and handholding
Teacher Adoption	High; teachers love using fastIEP regularly	Low; many teachers use it only once or twice a month
Impact on Student Progress	Real-time, easy progress monitoring allows timely adjustments	Minimal real-time data; limited impact on daily instruction
Parent Communication	Clear, colorful reports; supports images, videos, and real work samples	Standard text-based reports; parents feel overwhelmed
Customization	Truly individualized standards-aligned goals; guidance without forced compliance	Standardized goals; emphasizes uniformity over personalization
Research Claims	Practical evidence from real classrooms and case studies	Correlational studies with weak or selective claims
Teacher Retention	Increases teacher satisfaction and reduces burnout; teachers feel supported	Can actually increase teacher attrition, especially among experienced teachers

Why Choose fastIEP?

fastIEP: Designed for Real Classrooms

Easy to Use and Implement
Teachers can start using fastIEP effectively within hours, not weeks. No intensive workshops or expensive coaching required.

Truly Individualized Goals
We take the "I" in IEP seriously. fastIEP helps teachers tailor individualized goals that actually fit each student, remain simple to track, and are easy to create from templates.

Better Parent Engagement
Educators can invite parents to see progress directly through photos, videos, and student work samples that are attached to IEP goal events — not just numbers and summaries.

Improves Outcomes and Reduces Stress
Teachers stay on top of progress monitoring, enabling better adjustments to education interventions and ultimately better learning experiences for students.

A Smarter Investment

With fastIEP, schools aren't just buying a platform — they're investing in a tool that teachers love, that families understand, and that genuinely improves student outcomes.

Other solutions may claim to "transform" your practices, but fastIEP helps you **enhance** them, making great teachers even better without adding stress.

Ready to empower your teachers and engage your families?

"Choose fastIEP — where every student's progress is clear, every teacher feels supported, and every parent stays connected."
